24th .April, 2025

## **VITAMIN** | Vitamin E

01

According to market information, starting from April 23rd, all domestic feed-grade vitamin A, feed-grade vitamin E and feed-grade vitamin D3 of ZMC and Xinfu Pharmaceutical have been suspended from signing and reporting. Jiangxi Tianxin Pharmaceutical has suspended the signing and reporting of feed-grade vitamin E.

## **AMINO ACID** | Lysine

02

According to market information, in March 2025, the export of lysine esters and salts was 102,000 tons, an increase of 26.7% month-on-month and a decrease of 6.4% year-on-year. The cumulative export volume in the first quarter was 269,000 tons, a year-on-year decrease of 4.6%. Recently, the number of inquiries in the trade market has been relatively small, and prices have been running weakly. The domestic market supply is abundant, but the terminal demand is weak. Users are replenishing as needed.

## **API** | Oxytetracycline hydrochloride

03

Recently, upstream raw materials have been in short supply, and the overall delivery tightness of mainstream factories has persisted. Some manufacturers have stopped quotation. It is expected that the price will remain firm in the short term. In the future, it is necessary to continuously monitor the delivery situation of raw materials oxytetracycline, the production progress of factories, and changes in market demand. Overall, it is stable with an upward trend.

## **FOOD ADDITIVE** | Creatine monohydrate

04

The supply of creatine monohydrate, now mainstream factories delivery has been scheduled until the end of April. The domestic market transaction price has stabilized at USD3.2-3.45/KG. At present, the market transaction is booming. In the short term, it is not ruled out that creatine monohydrate will increase in price
